Forecast For West Midlands
Issued by Met Office Exeter
at 1600 on Tuesday 27 Apr 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Mostly cloudy with showers or longer spells of rain.

This Evening and Tonight:
A rather cloudy evening, with scattered showers across the region. Showers merging into longer spells of rain in the south overnight, which could be heavy at times. Not as cold as recent nights. Minimum temperature 4 deg C (39 deg F).

Wednesday:
Staying cloudy into the day, with heavy organised showers across the south of the region and perhaps the odd light shower in the far north. Feeling colder than of late. Maximum temperature 14 deg C (57 deg F).

Outlook for Thursday to Saturday:
Mostly dry on Thursday, though with the occasional scattered shower. These turn more frequent on Friday and Saturday, with sunny spells in-between. Feeling colder than recent, with night frosts possible.
